Adham Medhat Elsaied

has successfully completed the online Specialization

Microsoft Copilot: Your Everyday AI Companion

This Specialization dives deep into Microsoft Copilot, its capabilities, and its transformative impact on the modern workplace. Learners will gain a comprehensive understanding of Copilot's applications across various functions, including security, marketing, sales, and customer service. The program covers prompt engineering, ethical considerations, and regulatory implications, equipping participants to leverage Copilot responsibly and effectively. Upon completion, learners will be proficient in optimizing Copilot for enhanced productivity, streamlining workflows, and driving innovation within their organizations.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
