Dr. Jules White
Professor
Department of Computer Science
Vanderbilt University

Adham Medhat Elsaied

has successfully completed the online Specialization

Generative AI Automation

Step into the future of automation with our Generative AI Automation Specialization, a unique learning experience designed to make you adept at utilizing ChatGPT and other large language models to perform complex tasks with ease and innovation. Recognize the vast potential in your professional and personal life as you learn to apply AI capabilities that surpass the utility of your smartphone, from tutoring in math to writing sophisticated software. This program focuses on developing your ability to craft effective prompts—an essential skill for eliciting the emergent intelligence and advanced reasoning of generative AI tools and a cornerstone of becoming an expert user.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
