Adham Medhat Elsaied

has successfully completed the online Specialization

Microsoft Azure Cloud Administration Basics

Completing Azure Cloud Administration Basics demonstrates your practical skills in cloud administration and Azure infrastructure management. This certificate demonstrates your job readiness and can be shared with your professional network. Throughout this specialization, you've engaged with instructional videos, assessments, and hands-on projects, gaining experience with cloud computing concepts, Azure services, networking, monitoring, security, and automation. You have developed practical skills in configuring Azure resources, implementing identity and access management controls, monitoring cloud infrastructure, and managing Azure environments using tools such as Azure CLI, ARM templates, Azure Monitor, and Microsoft Entra ID.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
