Agentic AI and AI Agents: A Primer for Leaders

AI Agent Skills for Leaders

Prompt Engineering for ChatGPT

VANDERBILT UNIVERSITY

Oct 18, 2026

Adham Medhat Elsaied

has successfully completed the online Specialization

AI Mastery for Professionals

This specialization teaches professionals how to use generative AI, AI agents, and AI agent skills to transform everyday work into high-value, structured outputs. You will learn how to design reusable workflows that turn simple prompts into dashboards, reports, organized data, and decision tools that can be used immediately. By the end, you will be able to apply AI across business, personal, and technical tasks to dramatically increase productivity and impact.

Jules White

Dr. Jules White
Professor
Department of Computer Science
Vanderbilt University

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
