AI Agents with Model Context Protocol

Prompt Engineering for ChatGPT

Claude Code: Software Engineering with  
Generative AI Agents

Sep 13, 2026

**Adham Medhat Elsaied**

has successfully completed the online Specialization

# AI Agents with Model Context Protocol

The recipient has mastered the patterns and architectures required to build production-ready AI agents using Python and the Model Context Protocol. They can design tool servers that connect agents to real-world systems, architect agents that operate autonomously, and implement the critical patterns that make agents reliable in production. They have demonstrated expertise in building agents that discover context dynamically, recover from errors automatically, and use intelligence efficiently.
